This is one of the best things that happens in Fort Collins- we are lucky to have this.

ACT makes me proud to be a CSU Alum. One of the best things happening in town. Mind and heart opening.

As a society and individuals we NEED this festival. These films make a significant contribution to seeing and developing empathy for those we otherwise might never see.

Amazing opportunity to broaden your exposure to being a human

The time spent viewing the documentaries and listening to the filmmakers is educational and very thought provoking. Also the people I met in line, seated, and after the showings were concerned and active citizens. I felt more informed and connected.

Awesome thought provoking info., very emotional topics. Want to go out and start making a difference

Films are engaging, thought provoking and diverse in scope. Conversations with filmmakers and other attendees, enrich the experience through the sharing of context, perspective, and unique insights.

ACT is the most exciting event in Fort Collins each spring.

I have a broader and deeper sense of the injustice around me that I would not see because it is out of my line of sight. These films bring them to me in a way that lets me both see and feel for others. In addition, I am moved by them to delve deeper into the themes they highlight and do whatever I can to make a positive difference. I feel more "part of" the community of the world. Thank you ACT Film Festival!
